VIDEO OUT

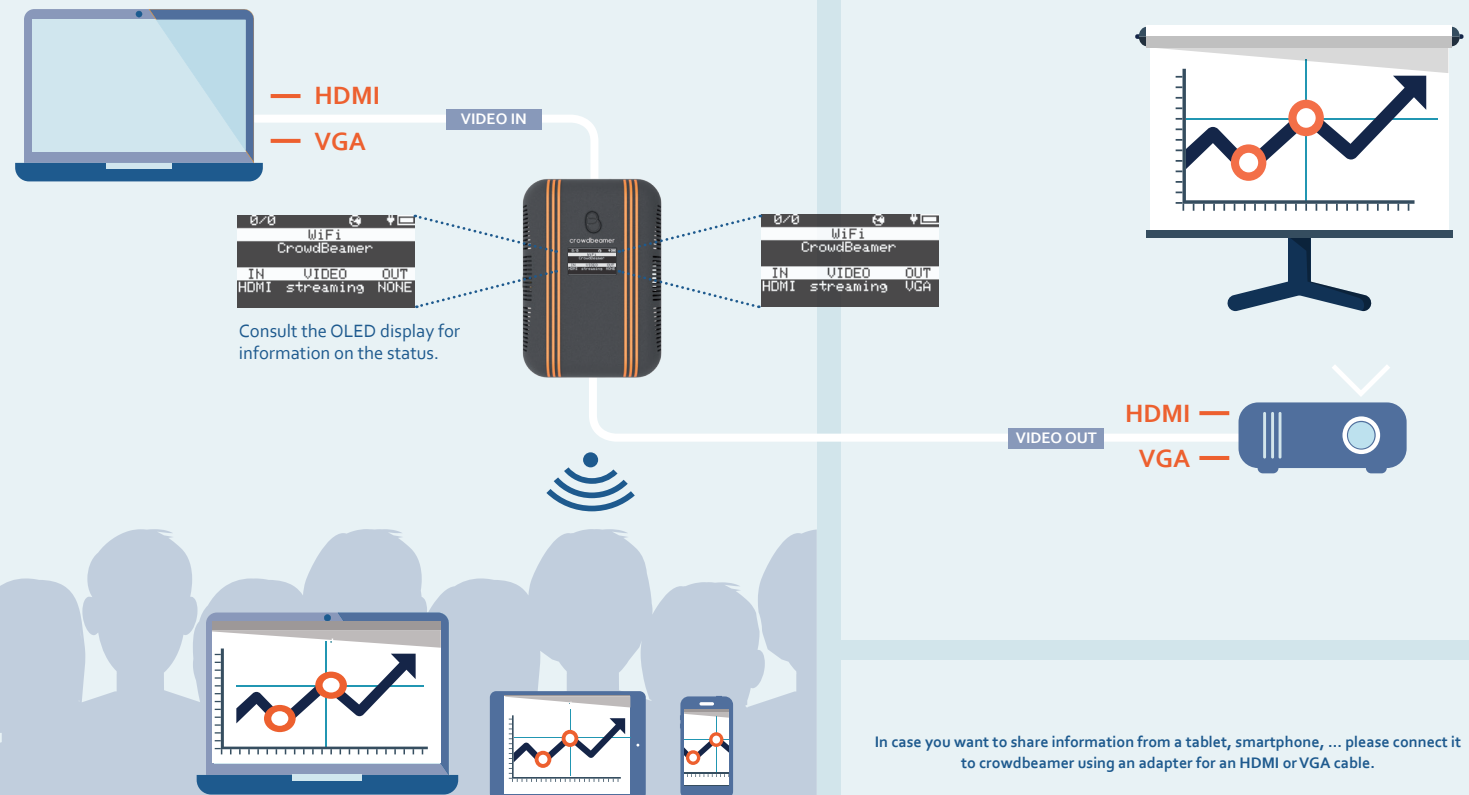

POWER BUTTON

2 CONNECT YOUR LAPTOP

To share content from your laptop, connect it to crowdbeamer using a VGA or HDMI cable.

- Always make sure to duplicate the screen you want to share.
- In case you are using a MacBook, press either F7 or Command-F1 on your keyboard.

3 (OPTIONALLY) CONNECT YOUR ROOM DISPLAY

With crowdbeamer connected to your presentation device, you may now optionally connect it to a projector.

In case you want to share information from a tablet, smartphone, ... please connect it to crowdbeamer using an adapter for an HDMI or VGA cable.
